## EXPERIENCE

### Data Scince Wizards, Mumbai — *Data Science Technical Communicator*

June 2022 - PRESENT

- Build and deploy Claim persistency model for health insurance company using the R and Python programming language(Tools: MSSQL, xgboost(R), Python, Rijndael, Reticulate, Pandas, NumPy).
- Build Crop Disease Detection Model using transfer Learning(TensorFlowLite, Flask, Python, MobileNet-50)
- Handling Content Marketing pipeline to showcase the company's ideology and philosophy in the market.
- Preparing technical blogs to showcase how different tools and technologies work related to data science.
- Working around the technical team, and learning about different tools that can be used for MLOps as they are building a platform UnifyAI(Feast, Jupyter, MLFlow, seldon core, K8s, Evidently, Grafana)

### Analytics India Magazine, Bengaluru — *Data Science Content Writer*

June 2021 - June 2022

- Curate, learn and building technology blog about new tools and technology in DS and AI field.
- Learn, build and develop courses on core knowledge of machine learning, statistical modelling, Neural Networks. (Tool: Google Colab, Python, Sklearn, Tensorflow, Pytorch, Pandas, Flask, RestAPI, technical documentation, SQL)
- Check my Articles on –https://analyticsindiamag.com/author/yugesh-vermaanalyticsindiamag-com/

### We360.ai, Bhopal — *Data Analyst*

December 2021 - June 2021

- Build and deployed data dashboards on a SaaS-Based Employ Monitoring Tool.
- Performed regular Data Analysis on Different teams performace Data, resulting to Finding KPI, Defining Next Targets, Taking

## SOFT SKILLS

Data Science, Artificial Intelligence,

Decision Making

Code Reading and Learning

Multi-Tasking

## AWARDS

**Statistical Modelling Using R and Python**

**Data mining, manipulation and analysis**

**EDA, Tableau, Power BI, Apache Supeset**

**Sklearn, TensorFlow, Pytorch, Pandas, Matplotlib, Numpy, Statsmodel, PyCaret**

## PROGRAMMING LANGUAGES

Python, R, SQL

## LINKS

**GitHub:** https://github.com/yugeshsb eenh ere

**AIM Blog:** https://analyticsindiamag.co m/author/yugesh-vermaanal yticsindiamag-com/

Data Driven Decisions.
- Performed Web scrapping for a subsidiary part using python(python, pandas, Tabula, Selenium)

## EDUCATION

### ExcelR Solutions, Pune— *Data Science Certification*

June 2019 - March 2020

Learn about Data Science and Artifical Intelligence, completed Several real life projects including Salesman predictions, Sentiment Analysis system, and reccomendation System.

### Shree Vaishnav Institute of SC and Technology(RGPV), Indore — *Bachelor of Engineering(Automobile Engineering)*

July 2013 - July 2014

Completed my graduation and learn about the automobile engineering, during this course took participation in various competition which required designing different vehicle including Gokart, Supra(f-1 cars), Baja(off road buggy).
